BMP Automotive #21

**TITLE: LABELING HAZARDOUS WASTE DRUMS/CONTAINERS & ACCUMULATION
START DATES**

Regulatory Citation: 6 NYCRR Part 372.2(c)(8)(iii)(d), 373-1.1(d)(1)(iii)(c)(2)

Applicability: Hazardous Waste Storage Containers

Purpose: Proper labeling of Hazardous Waste Storage Containers

**Person or
Department Responsible:** Automotive Dept Chair (629-7272)

Schedule: As needed

Procedures: Once hazardous waste is placed into the storage containers they must be labeled with a "Hazardous Waste" label. In addition, other words (i.e. flammable liquid) that identify the wastes must also be noted on the label. The date on the label must be the first time hazardous waste is added to the container

Note: The accumulation of waste will not exceed 180 days from the date on the HVCC label. Generally waste accumulation for the Automotive department occurs from December to May, with a pick up of the waste occurring in May when the school semester has ended.

Prior to shipping the hazardous waste container off-site, the containers must also be labeled with the State-require hazardous waste label and all information filled in, including "Proper DOT shipping name", the facility's name (Hudson Valley Community College), the college's address, EPA Identification Number (NYD020663415), EPA Waste Code and manifest number. The label must be legible and visible. An example Hazardous Waste shipping label is attached.

Record keeping: Not Applicable.

Record Location: Not Applicable.
