BMP MEC-ITD #4

TITLE: SPENT COOLANT & SHOP VAC SOLIDS

Regulatory Citation: 6 NYCRR Part 360

Applicability: Solid waste disposal.

Purpose: Ensure the proper disposal of spent coolant solids and shop vac wastes.

**Person or
Department Responsible:** MEC-ITD Laboratory Assistant

Schedule: As needed, when shop vac filter bag is changed and when coolant flow indicates clean out is needed.

Procedure: The MEC-ITD Laboratory Assistant collected the coolant solids or shop vac separately in a covered labeled container and the Coordinator of Environmental Health & Safety has conducted a waste analysis to characterize the waste for disposal. Based on the analysis, the waste can be disposed in the normal trash and does not need to be collected separately.

If the content of the waste changes in the future, the Lab Assistant will contact the Coordinator of EHS to update the waste characterization.

Record keeping: analytical tests of wastes

Record Location: Original Physical Office, EPA files.

Contact: Coordinator of Environmental, Health and Safety (629-7163)
MEC-ITD Laboratory Assistant (629-7108)
